1.0 Background

The Site C Clean Energy Project is a hydroelectric dam and generating station under construction in northeast B.C. Construction started in July 2015 and will be completed in 2024. Site C will help meet future electricity needs by providing 1,100 megawatts of dependable capacity, and producing about 5,100 gigawatt hours of energy each year — enough to power the equivalent of 450,000 homes in B.C. per year. Once built, the project will be a source of clean, reliable and cost-effective electricity in B.C. for more than 100 years.

The key components of the project are:

- Access roads and a temporary construction bridge across the river, at the dam site.
- Worker accommodation at the dam site.
- Upgrades to 240, 269, 271 and Old Fort roads.
- The realignment of six segments of Highway 29.
- Two temporary cofferdams across the river to allow for construction of the earthfill dam.
- Two new 500 kilovolt transmission lines connecting Site C to the Peace Canyon Substation, within an existing right-of-way.
- Shoreline protection at Hudson’s Hope, including upgrades to DA Thomas Road.
- An 800-metre roller-compacted-concrete buttress to enhance seismic protection.
- An earthfill dam, approximately 1,050 metres long and 60 metres high above the riverbed.
- A generating station with six 183 MW generating units.
- An 83-kilometre-long reservoir that will be, on average, two-to-three times the width of the current river.

1.1 Environmental Assessment Certification Conditions

The [Site C Business Participation Plan](#) has been developed in accordance with Conditions 51, 54 and 72 of the Environmental Assessment Certificate (EAC), and supports local and regional business participation in the project. Table 1 describes where in the Business Participation Plan each aspect of the EAC conditions is addressed.

This Business Participation Plan Annual Report provides a review of the activities undertaken in the reporting period, which is July 1, 2016 to June 30, 2017.

Table 1. EAC Conditions addressed in the Business Participation Plan

EAC Condition Number	Condition	Plan Reference/Status
51	The EAC Holder must develop and implement a Business Participation Plan.	The Business Participation Plan was completed June 5, 2015.

	The Plan must include at least the following:	
	<ul style="list-style-type: none"> • Increase awareness in the business community about Site C procurement opportunities. 	See Section 3.1 Increasing awareness in the business community See Section 6.0 Key Activities and Tools
	<ul style="list-style-type: none"> • Develop partnerships with local business organizations and economic development offices and programs to communicate and maximize opportunities for local businesses. 	See Section 3.2 Developing partnerships to maximize opportunities See Section 6.0 Key Activities and Tools
	The EAC Holder must provide the draft Business Participation Plan to the City of Fort St. John, District of Hudson Hope, District of Taylor and Peace River Regional District for review 90 days prior to the commencement of construction.	The draft plan was submitted to regulatory agencies and governments on Oct. 17, 2014.
	The EAC Holder must file the final Business Participation Plan with Environmental Assessment Office (EAO), City of Fort St. John, District of Hudson's Hope, District of Taylor and Peace River Regional District a minimum of 30 days prior to the commencement of construction.	Comments on the draft plan were received from regulatory agencies and governments during November and December 2014, and were considered in the revisions. Comments on the revised plan were requested by May 11, 2015.
	The EAC Holder must develop, implement and adhere to the final plan, and any amendments, to the satisfaction of EAO.	This allowed for review, consideration of comments and finalization of the plan 30 days prior to the commencement of construction. The Canadian Environmental Assessment Agency and Environment Canada submitted comments on the revised plan on May 22, 2015. These comments were considered and the final plan was revised accordingly and submitted on June 5, 2015 to the

3.0 Reporting

As per Section 7.0 of the Site C Project Business Participation Plan, BC Hydro will publicly report on the following business participation activities on an annual basis:

Reporting Requirement	Year Two Update
Number of registrants in the Site C Business Directory	As of June 30, 2017, there were 2,120 companies registered with the Site C Business Directory.
Number of attendees at business-to-business networking sessions and business information sessions	<p>No business networking sessions were held in this reporting period. BC Hydro encouraged Site C's contractors to liaise with the business community directly. In order to facilitate business-to-business relationships, contact information has been posted online for our contractors.</p> <p>Further, the business directory has been shared with all on-site contractors and BC Hydro's procurement team.</p> <p>See Appendix A for more information about business participation activities with BC Hydro and Site C contractors.</p>
Visits to the Site C project website – Business Opportunities pages	<p>Information about the status of procurements, the procurement approach and procurement forecast is publicly available on the Business Opportunities section of the project website.</p> <p>The Procurement Update page averaged 839 visits per month during the year, peaking at 1,074 in October 2016. The Procurement Forecast page averaged 208 visits per month during the year, peaking at 292 in September 2016. And, the Business Directory page averaged 148 visits per month during the year, peaking at 196 in September 2016.</p> <p>Appendix B provides a monthly report of visits to the three key procurement pages.</p>
Number of respondents to Requests for Supplier Qualifications	<p>The number of respondents to a Request for Supplier Qualifications is indicative of the level of market interest in a procurement opportunity.</p> <p>For the reporting period, two RFSQs were posted, which generated 16 responses total. The RFSQ for hydro-mechanical equipment had nine respondents and the RFSQ for generating station and spillways civil works had seven respondents.</p>
Number of local, regional and Aboriginal contractors working on the Site C Project	<p>Each month, the major contractors on the project are required to submit the names and addresses of local and regional businesses that have been hired to perform the work.</p> <p>Appendix C provides a list of ~400 northern B.C. businesses engaged in project work from the start of construction.</p>
